Speaker Guide | Attendee Hub

[Google Chrome](#) and [Microsoft Edge](#) are the only browsers fully compatible with Attendee Hub. As a result, we highly recommend logging into Attendee Hub with either of those browsers.

This guide provides you with the information you need to feel confident opening and managing your session(s). Attendee Hub, a sophisticated platform which hosts all sessions, allows speakers to engage with attendees in interactive ways. Please reference this guide for information on how to open, manage, and close your session(s) from within Attendee Hub.

How to Access Attendee Hub

Steps - Log into Attendee Hub

[Google Chrome](#) and [Microsoft Edge](#) are the only browsers fully compatible with Attendee Hub.

- 1 Navigate to the Attendee Hub website:
<https://cvent.me/xx5n1g>
- 2 Enter in your name and the email that is associated with your registration.
- 3 Enter in the verification code that is sent to your email and/or phone (you will receive a text notification if your mobile phone number was provided when you were registered).

You have logged into Attendee Hub

Frequently asked questions

Q. I am not sure what email is associated with my registration. How do I find that out?

A. Try to identify your registration confirmation email which included the subject line, "Registration Confirmed | 2026 Global Gathering for the Future of Child Welfare". Alternatively, you can navigate to the [Speaker Resource Page](#) and check to see if you are registered. Email the [Global Gathering Team](#) for further clarification on your registration status.

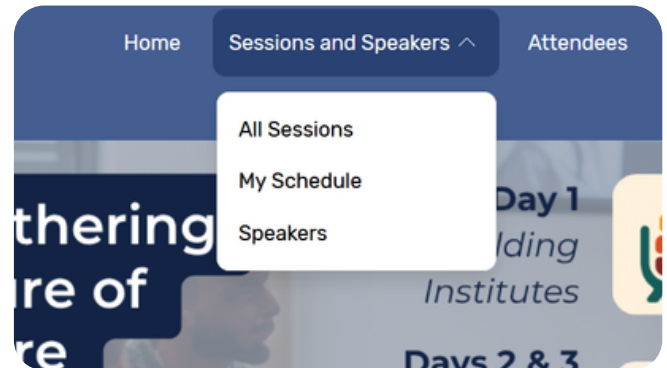

Q. Why didn't I receive a verification code when I attempted to sign in?

A. If you checked your spam folder and still can't find your verification code, that could mean you are using the wrong email to log into Attendee Hub or you haven't yet registered for the event. If you haven't registered for the gathering, please take a moment to do that [by clicking here](#) then wait 15 minutes before attempting to log back into Attendee Hub.

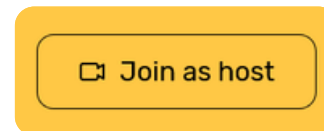

How to Host Your Session in Attendee Hub

Steps - Identify Your Session

- 1 After [logging in](#), hover over *Sessions and Speakers* and click on *All Sessions*.
- 2 Type in the name of your session in the Search Bar or use the filters in the left-hand column to find your session. Then, click on your session name. Do **not click** *Join as participant*.

- 3 Instead, **click on** *Join as host*. Starting September 28, 2026 you will see this button appear. Attendees can start joining your session 5 minutes before it begins, however you can join your session as a host as early as you need.

-  **You have joined your session. Your session is either on Zoom or Embedded in Attendee Hub.**

Check your session's video format on the [Speaker Resource Page](#)

Frequently asked questions

Q. I cannot find my session. What should I do?

A. Try using a shorter keyword to find your session. For example, if your session is called *Centering Culture for Transformative Systems Change*, try searching for *Centering Culture*. You can also search for your session using any of the filters in the left-hand column (e.g., by time, date, speaker) in Attendee Hub.

Q. Why don't I see a *Join as host* button?

A. If it is after September 28, 2026, there are a few possible reasons, but the most likely one is that you are not listed as a *Host* on that session. Please [reach out to the Global Gathering Team](#) so they can investigate.

Q. Something about my session does not look right. Can I make edits to the name or description of my session? Can I change who is listed as a Speaker?

A. You can make changes to your session by logging into the [Speaker Portal](#). Please [email the Global Gathering Team](#) if a Speaker should be added or removed from a session.

Embedded Sessions

Embedded sessions take place entirely within Attendee Hub. These sessions allow presenters to engage with attendees by utilizing tools such as Q&A, polls, and chat.

Check your session's video format on the [Speaker Support Page](#)

Q&A

Receive and answer questions from attendees [in real-time](#)

Polls

Poll your audience [using different question types](#) and broadcast the results

Chat

Encourage attendees to use the [chat function](#) to share thoughts and ideas

Functionality

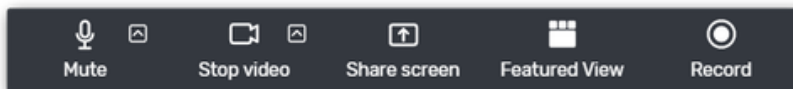

1

Manage participation requests. By default, attendees join Embedded sessions as *Observers*. *Observers* can view the presentation, but their video and audio is turned off. *Observers* can request to be *Participants*. *Participants* can share their video, sound, and screen. An attendee (i.e., *Observer*) may request to become a *Participant* to ask a question or make a comment.

Here's how it works: All speakers and moderators have the ability to approve requests from attendees to become *Participants*. To approve requests, click **Attendees** in the engagement panel on the right of your session. In the Requests to participate section, click  to the right of the attendee's name to add them as a participant.

2

Manage video content. As a speaker, you can share your video, sound, and screen. To do so, use the host controls at the bottom of the video. Most sessions will be recorded. Either the moderator, concierge, or speaker can click Record.

3

End your session. Once the presentation is over, click **End session** at the bottom-right corner of the video controls to end the session.

Note: Attendees can start joining the session **five minutes before** the scheduled start time, so make sure you are mindful of the time when prepping prior to the session.

Embedded Sessions

Feature Spotlight: Live Q&A

Q&A allows attendees to submit questions during a session from the Attendee Hub session page. As a speaker, you can submit answers to these questions via text or answer them verbally.

[Learn more](#)

2

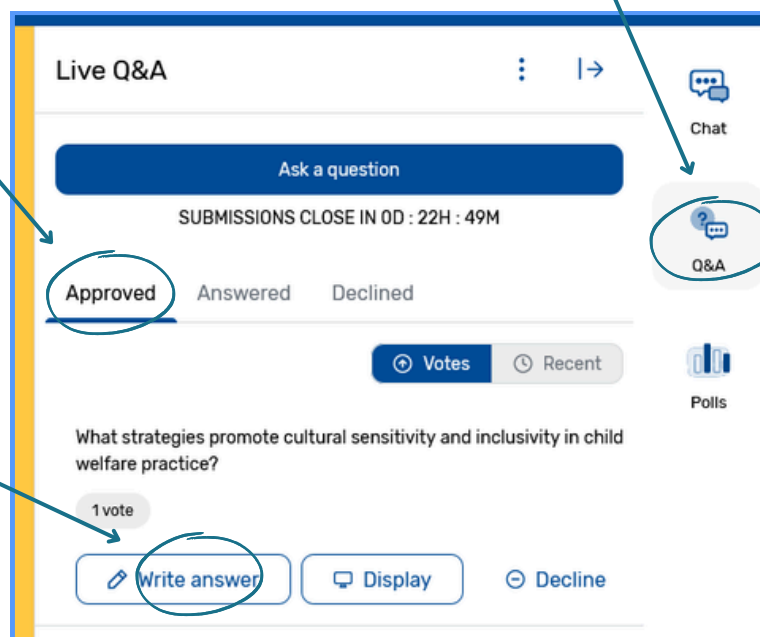

When you click on **Q&A**, the **Approved** tab is selected by default and displays all of the questions that have been submitted.

1

Click Q&A in the toolbar on the right to expand the engagement panel.

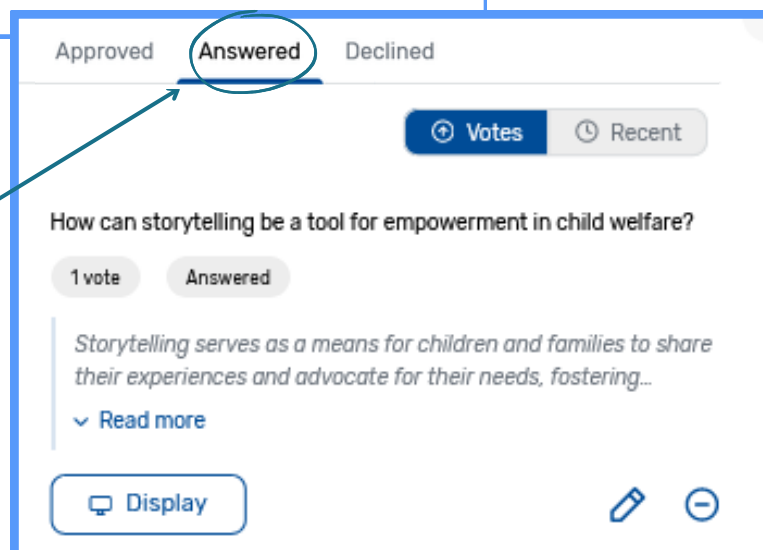

3

Click **Write answer** next to a question and type your answer in the textbox that appears. Then click **Post response**.

4

Click on **Answered** to see your response. Here, you can also edit your response.

Note: Both speakers and moderators will have the ability to answer attendee questions.

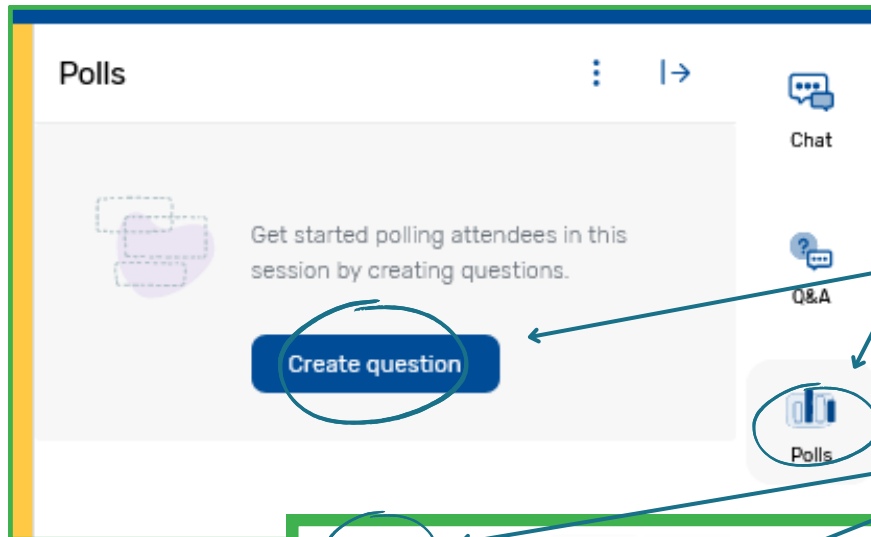

Embedded Sessions

Feature Spotlight: Polls

Polls let attendees submit responses to questions during your session. As a speaker, you can create, display, and close polls to gather real-time feedback.

[Learn more](#)

1

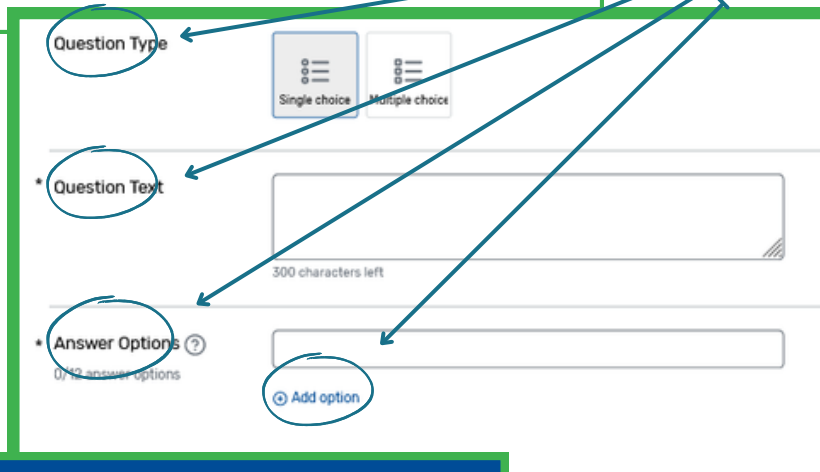

Click **Polls** in the toolbar on the right to expand the engagement panel.

2

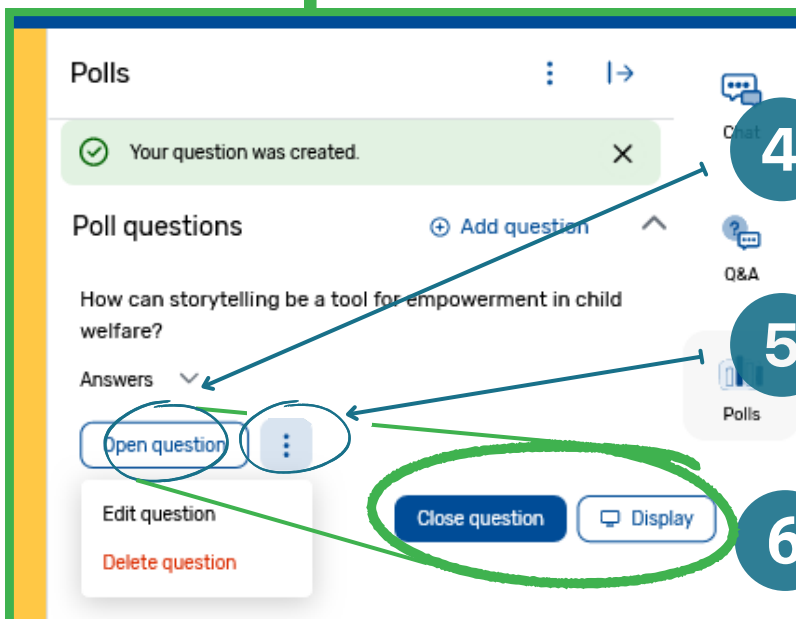

Click **Create question** to start a poll

3

Select a *question type*, then enter the *question text* and *answer options*. Click **Add option** after each answer to add more

When you're finished, click **Done** to **complete your poll**, or Add another question to add more questions to your poll. Any questions you create will appear under a new Poll questions header.

4

When you're ready for attendees to start submitting their responses, click **Open question**. Attendees won't be able to see the question at all until you click this.

5

To make changes to a question, click the  icon below the question, then click **Edit question**. Editing the question will delete any attendee responses you've already received.

6

Click **Display** to broadcast a poll. This will overlay the poll on top of the session video. Click **Close question** when you are done collecting responses.

Embedded Sessions

Feature Spotlight: Chat

Chat allows attendees and speakers to exchange messages with each other throughout the session, enhancing collaboration and discussion.

[Learn more](#)

Click **Chat** in the toolbar on the right to expand the engagement panel.

1

2

Any messages that you send will say Facilitator underneath.

Attendees and speakers can chat during the duration of the session.

3

Zoom Sessions

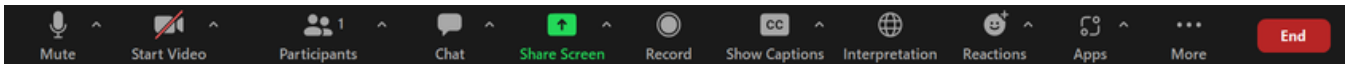

Zoom sessions are similar to Zoom meetings. You will start your session from within Attendee Hub. However, an external Zoom meeting will open. You should [download Zoom](#) to your computer beforehand so you do not encounter any issues.

Check your session's video format on the Speaker Resource Page

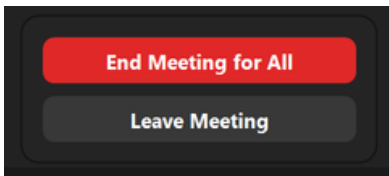

Features

1 Facilitate chat, polls, start breakout rooms, manage participants, and utilize other Zoom tools. Zoom sessions operate similar to Zoom meetings. Manage your Zoom session just as you would a normal Zoom meeting.

2 Manage video content. As a speaker, you can share your video, sound, and screen. To do so, use the controls at the bottom of your Zoom screen.

3 End your session. Once the presentation is over, click **End** at the bottom-right corner of the video controls. Then, click **End Meeting for All**.

Zoom resources:

- [Downloading the Zoom desktop client](#)
- [Managing Breakout Rooms](#)
- [Creating and managing Polls](#)
- [Sharing your screen](#)
- [How to use Zoom chat](#)

The first speaker to join a Zoom session is the host. Any subsequent speakers or moderators who join will become a co-host. We recommend renaming yourself once you start the meeting. Your name will be listed as "Session Host" by default. To rename yourself, click **Participants** in the video controls, then locate yourself on the list. Hover your cursor over the name and click the **More** button that appears, then **Rename**.

By clicking **Security** in the video controls, you can grant certain permissions to attendees, such as the ability for them to share their screen or video.

Note: Attendees can start joining the session **five minutes before** the scheduled start time, so make sure you are mindful of the time when prepping prior to the session.

(Continuing Education Units) and Session Feedback Surveys

Eligible sessions will grant CEUs, or Continuing Education Units, to US-based Licensed Social Workers, Licensed Marriage & Family Therapists, and Licensed Mental Health Counselors. CEUs earned by attendees will be accepted in many states across the US. You can check to see if your session is CEU-eligible on the [Speaker Resource Page](#). You can also check by locating your session in Attendee Hub and identifying the CEU tag. There are a few things to be aware of whether or not your session is CEU-eligible.

1

On a session's page in **Attendee Hub**, a **Survey** icon will appear on the right toolbar for participants. Participants are encouraged to click on **Survey** to answer general session feedback questions after the session. This **Survey** icon appears in Attendee Hub on the session page from which speakers and attendees click to join their session.

2

If the participant filling out the Survey also purchased the ability to claim CEUs when they registered, they will see additional CEU knowledge check questions at the bottom of the general session feedback form.

3

For Zoom sessions , it is important to note that the survey will populate on the **Attendee Hub** session page, not in the Zoom meeting itself.

4

At the end of your session, we recommend that you or a volunteer moderator make an announcement encouraging participants to fill out the session feedback survey in Attendee Hub. Here is suggested messaging depending on your session type.

Check your session's video format on the Speaker Resource Page

Zoom Sessions

*"Please fill out a brief, 30-second session feedback form. You can find this form by navigating to the session page in Attendee Hub. On the right toolbar you will see an icon labeled **Survey**. If you are claiming CEUs, 3 knowledge check questions will populate at the end of the survey. Once you submit the form, you will receive credit for attending this session."*

Embedded Sessions

*"Please fill out a brief, 30-second session feedback form, by clicking **Survey** on the right toolbar. If you are claiming CEUs, 3 knowledge check questions will populate at the end of the survey. Once you submit the form, you will receive credit for attending this session."*
